Sorry Ralph, I didn't mention in the email.... Dimock_SampleResults_Jan_Feb_2012_ver2.pdf is the title of the map that can be found at the <http://epaosc.org/dimock>. its a little too large to send through email,

I also should mention to access the website you will need to get a password which is easily applied for and granted. Once you get to the website on the right hand side you will see a section titled "Documents", which is where you can find Dimock_SampleResults_Jan_Feb_2012_ver2.pdf and several other documents you may find interesting.

By next Wednesday I should have a database with all the metals, cations, anions, field parameters etc.

Hopefully we'll be able to talk after you have had a chance to review the data....

thanks
rich

Hi Rich

The following pdf file that you sent did not get through to me. You might want to try again.

Dimock_SampleResults_Jan_Feb_2012_ver2.pdf
